ABOUT ME

Senior Full-Stack Developer passionate about solving technical challenges, improving software quality, and enabling teams to deliver value efficiently. I combine hands-on expertise in Java ecosystem technologies with a strong learning mindset and interest in architecture, tooling, and automation. I enjoy mentoring, knowledge-sharing, and working alongside stakeholders to turn requirements into reliable, scalable, and maintainable applications.

Currently acquiring strong knowledge in React, Next.js, TypeScript, TailwindCSS, React Query, React Hook Form, Zod, Prisma and modern full-stack JavaScript (MERN/PERN). Focused on building production-grade applications, authentication/authorization systems, RBAC, and scalable data-driven UIs.
